Scottsdale, Arizona 85260

End of Life Notice Regarding:

T7Plus Countertop Terminal

To our Valued Customers and Partners,

As part of our continued focus toward providing our customers and partners the highest level of service, quality and security, Hypercom plans to End of Life (EOL) the T7Plus Countertop Payment Terminal. The important dates listed below signify the termination of the T7Plus product support and availability:

Final Order Date: After **December 31, 2010**, Hypercom will cease taking orders for all configurations of the T7Plus terminal listed on the following page.

- Complete forecast for spare parts for the remaining life of the T7Plus must be submitted prior to the final order date.

Final Ship Date: Hypercom's objective is to ship all T7Plus orders placed prior to December 31, 2010 no later than **April 1, 2011**.

End of Development Date: Effective **December 31, 2010**, there will be no new Hypercom sponsored software development. **Software bug fixes will continue for 3 months after the final ship date of April 1, 2011.**

- Repair support will be available for customers for a minimum of 3 years after the final ship date, as component availability permits, unless otherwise explicitly agreed between Hypercom and its customers.

Final Spare Parts Order Date: After **January 31, 2014**, Hypercom will cease taking orders for spare parts. Additional communication will be provided to Regional Repair Facilities prior to this date.

End of Service Date: On **July 30, 2014**, service and repair of all configurations of the T7Plus will be discontinued. Spare parts will not be available after this date.

Hypercom recommends and encourages our customers and partners begin an action plan to migrate your T7Plus products and applications to an alternative Hypercom product line. The [Hypercom Optimum T4205](#) provides an affordable and effective platform that meets today's most stringent industry mandated security standards. The T4205 also uses the same application code base and user interface as the T4200 and M4200 product family.

The POS industry is one of the fastest growing in the world. Constant improvements and advancements in technology encourage us to incorporate these changes for the benefit of our customers. As a global leader in the POS industry, Hypercom stands ready to assist our partners in implementing these changes. If we can assist with your migration efforts to the latest applications and terminal platforms, contact your Hypercom representative today.

Best regards and continued success!

Norman Castner
 Director, Countertop Product Manager
 Global Product Management
